**Subgrant Abstract:**

This grant will utilize a 3-pronged approach to ensure the success of homeless students in the Hampton School District. The first point is to eliminate barriers to education through providing resources and assistance to help homeless students increase school attendance. Secondly, coordinate with local service agencies that specialize in the assistance of homeless individuals and families to provide work and health support. Lastly, to ensure homeless students meet the district's academic standards by providing mentors and tutors.

The mentors/tutors aforementioned will be trained through the Browne Center, an organization that offers learning programs to students of all ages and specialized in leadership and mentorship training. Mentors trained by the Browne Center will be available for homeless students to get assistance with both academic and social needs.
